

EXPERIMENT 5: Reports, Dashboards, and UI Builder

AIM

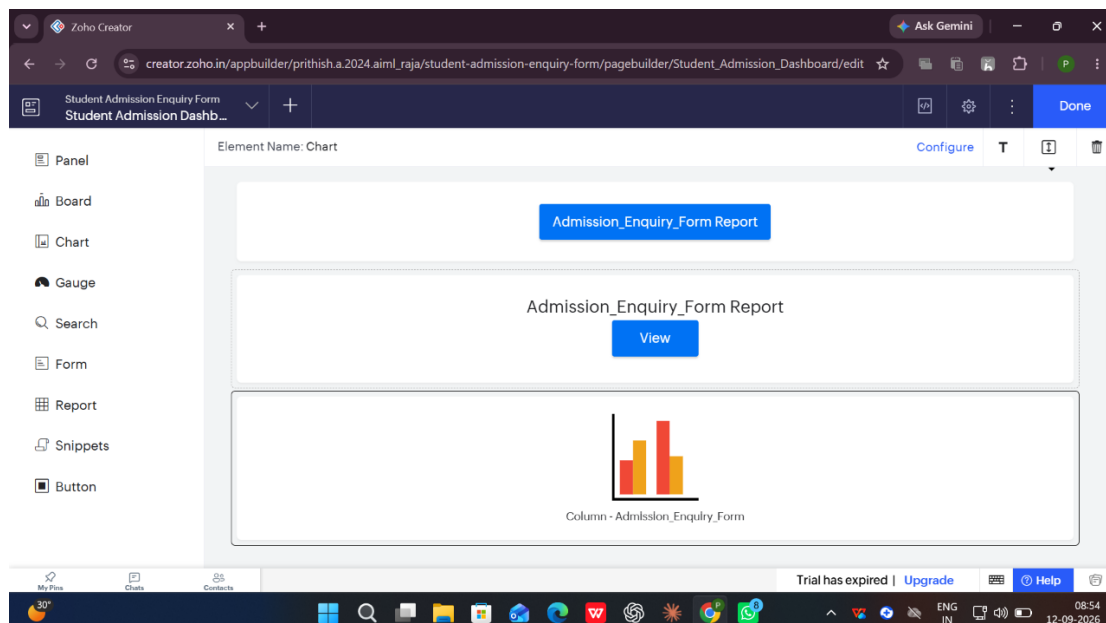

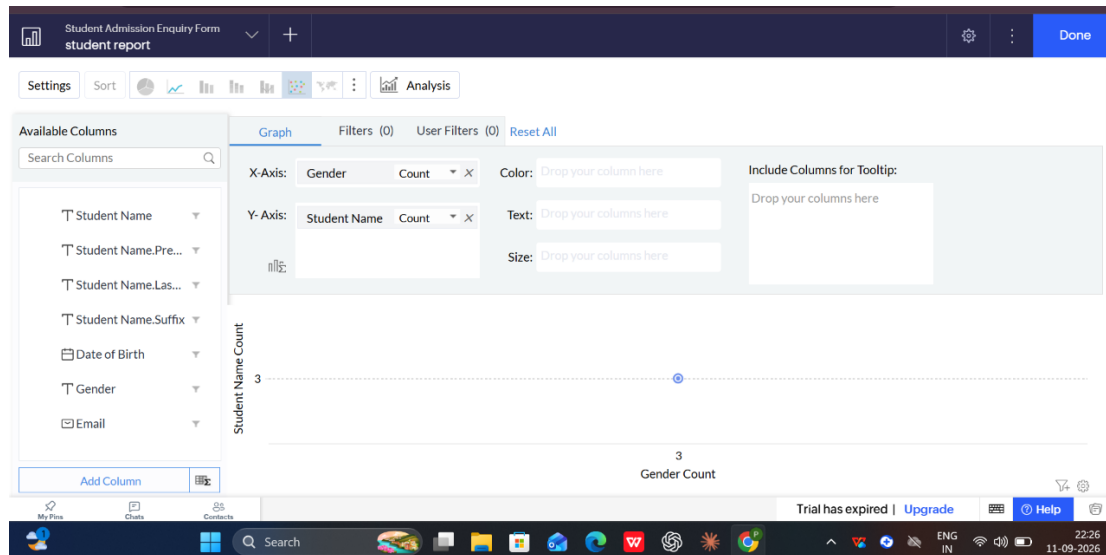

To create and configure **reports, dashboards, and a user interface using UI Builder in Zoho Creator** for the existing Student Enquiry application, in order to analyze enquiry data and provide an interactive interface for managing student enquiries.

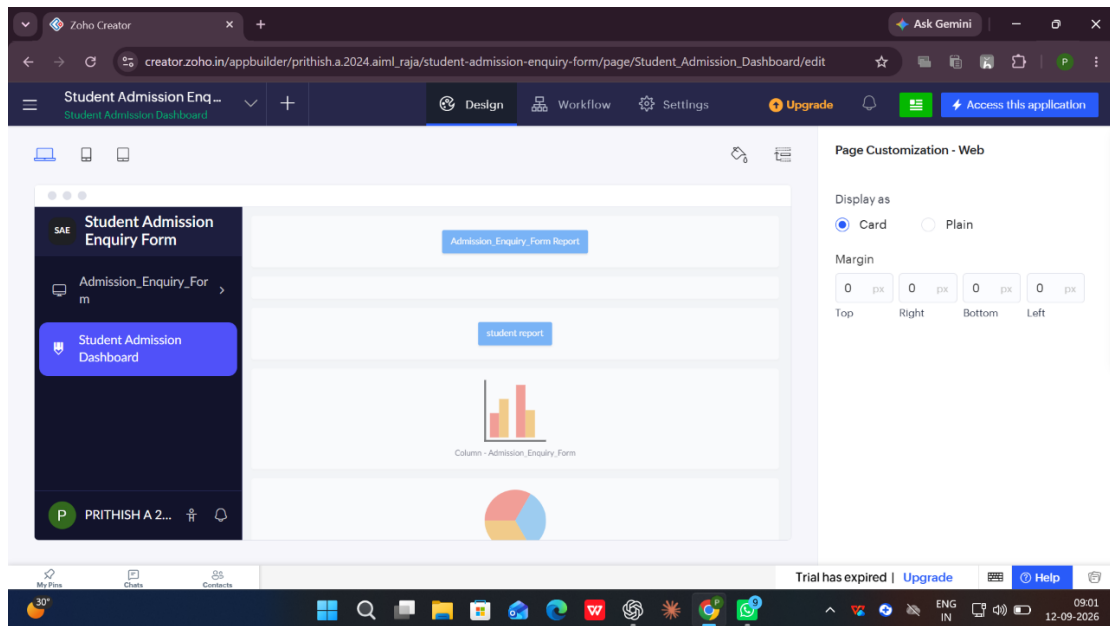

PROCEDURE

1. Open the existing **Student Enquiry** application in Zoho Creator.
2. Navigate to the **Reports** section and create a **List Report** using the existing Student Enquiry form.
3. Configure the report to display important fields such as:
 1. Student Name
 2. Course
 3. Email
 4. Phone Number
 5. Qualification
 6. Percentage
 7. Enquiry Date
4. Create a **Summary Report** to analyze student enquiries based on the **Course** field.
5. Create another summary report to categorize enquiries based on **Qualification**.
6. Navigate to **Pages/Dashboard** and create a new page named **Student Admission Dashboard**.
7. Add a total-enquiry count to display the number of submitted enquiries.
8. Add a **Bar Chart** to visualize course-wise student enquiries.
9. Add a **Pie Chart** to visualize qualification-wise enquiries.
10. Add a **Line Chart** to visualize enquiries based on the enquiry date.
11. Use **UI Builder/Page Builder** to create an **Admission Management** interface.
12. Add buttons such as:
 - **New Enquiry**
 - **View All Enquiries**
 - **Dashboard**

1. Configure the **New Enquiry** button to open the existing Student Enquiry form and configure the other buttons to navigate to the respective reports and dashboard.
2. Save and test the application by adding or viewing enquiry records and verifying that the reports and dashboard are updated accordingly.

SCREENSHORT:

RESULT

Thus, **reports, a dashboard, and a user interface were successfully created using Zoho Creator** for the existing Student Enquiry application. The system provides organized enquiry reports, graphical analysis of student data, and an interactive interface for managing and viewing admission enquiries.
